

A close-up photograph of a walnut tree branch. The branch is covered in dense, vibrant green leaves with prominent veins. Several small, round, green walnuts are visible, some hanging from the branch and others nestled among the leaves. The lighting is bright, creating a dappled effect of light and shadow on the foliage.

**Psalms 109:31 For he shall stand at
the right hand of the poor, to save
him from those that condemn his
soul.**
