

A close-up photograph of a bright red poinsettia flower. The petals are large, layered, and have a slightly waxy texture. The center of the flower shows small, developing buds in shades of green and red. The background is dark and out of focus, making the flower stand out prominently.

Acts 05:15 Inasmuch that they
brought forth the sick into the
streets, and laid them on beds and
couches, that at the least the
shadow of Peter passing by might
overshadow some of them.
